

What's the solution?
What is the plan?
How do undo pollution?
How to remake man?

Drugs to cure the suffering
Alcohol for the pain
The people are left buffering
Most have gone insane

Knowledge is half the answer
We must learn about the past
Ignorance is like a cancer
If not treated it grows fast

The other is forgiveness
Though many hearts are scarred
We cannot cling to bitterness
Instead to absolution despite it being hard

Elijah Geurink
